### Speakers

#### Randy Clark

In 1994 Randy Clark was at a conference originally scheduled for 4 days. The conference later became known as the worldwide revival called the "Toronto Blessing". Randy was utterly surprised when he began to see himself used so powerfully by God. What amazed him even more was the fact that the people he touched through the laying on of hands ended up doing even more astonishing things! Receive a fresh impartation that will release a new dimension of revelation, along with a deep sense of confidence and resolve to pursue the deeper things of God.

#### Bill Johnson

Bill Johnson is one of the most prolific teachers in the Body of Christ today! Through his powerful teachings, he is molding an entire generation of believers. His revelatory messages illuminate the hearts and minds of believers, and inspire the hearer to invade earth with heaven's realities. He is a fifth generation preacher whose influences can be traced back to such renowned ministers as Smith Wigglesworth and Aimee Semple McPherson, and leads a dynamic church in Redding, California known for healings, and signs and wonders. He is also the author of the best-selling books, When Heaven Invades Earth and Supernatural Power of a Transformed Mind.

#### Will Hart

In 1999 Will walked into the basement of a church not knowing why he was there. That night the Holy Spirit reached out and grabbed him by the heart and he was never the same. Since then Will and his wife Musy have traveled and ministered with Bob Bradbury, Randy Clark and Rolland and Heidi Baker. Will's call is to take the simplicity of the gospel and power of the Holy Spirit wherever he goes. Whether it is the jungles of Congo or the streets of Thailand, he is expectant and confident in the Holy Spirit showing up in power.
